DETAILED ACTION

Information Disclosure Statement

The information disclosure statement filed September 14, 2004 fails to comply with 37 CFR 1.98(a)(1), which requires the following: (1) a list of all patents, publications, applications, or other information submitted for consideration by the Office; (2) U.S. patents and U.S. patent application publications listed in a section separately from citations of other documents; (3) the application number of the application in which the information disclosure statement is being submitted on each page of the list; (4) a column that provides a blank space next to each document to be considered, for the examiner's initials; and (5) a heading that clearly indicates that the list is an information disclosure statement. The information disclosure statement has been placed in the application file, but the information referred to therein has not been considered.

If the Applicant can provide additional information that affects the patentability of the claims, the examiner would like to have this information. Otherwise, the claims would still be allowable.

Allowable Subject Matter

Claims 1-72 are allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. No additional art was cited during this first office action.
